

HP's 2010 Trade-in & Save Program

Printelligent will help you save up to 25% on your next printer purchase. Receive a rebate by mail when you purchase a new HP printer, process an on-line rebate claim with HP, and recycle an old desktop printer – any brand in any condition. HP pays for the shipping.

New in 2010, you can receive an additional rebate when trading in a Non-HP printer (see Rebate+ amounts) of up to \$50. For more information on HP's Trade-in & Save program, go to: www.hp.com/go/tradeandsave

is a non-HP device

"My Printelligent Account Manager told me about HP's Trade-in & Save rebate program. I purchased a printer and was provided everything necessary to return my old printer and apply for the rebate of \$400. HP even paid for the shipping. It was easy!"
